

Stubbo Solar

Renewable Energy from ACEN

August 2023 Update

Approval to commence construction

As part of the approvals process for our Stubbo Solar project, a number of management plans needed to be developed. These documents steer and guide our work and help us remain compliant on items such as soil and water, biodiversity, traffic, heritage management and employment.

The NSW Government has approved all the Stubbo Solar management plans. This now means that construction can commence on the Stubbo Solar project.

To view the Stubbo Solar Management plans, visit: stubbosolar.com.au/documents-and-approvals/

Sharing the benefits of the Stubbo Solar project

A Social Investment Program (SIP) has been established during construction of the Stubbo Solar project to support the Gulgong community.

Funding is available to not-for-profit organisations in Gulgong for projects, events or facility upgrades.

We have been proud to sponsor recent events such as the Henry Lawson Heritage Festival, the Gulgong Eisteddfod and the Gulgong Arts Council.

If you, or someone you know, are part of a not-for-profit organisation and would like to apply for funding under the Stubbo Solar SIP, please contact the Community Engagement team at info@stubbsolar.com.au.
