

Stubbo Solar

Renewable Energy from ACEN

Blue Springs Road upgrade works complete

As a part of the Pre-Construction works for Stubbo Solar, our works to upgrade Blue Springs Road is now complete.

This work involved the widening and re-surfacing of Blue Springs Road for 4.6km from the Cope Road / Blue Springs Road intersection.

The upgrade of Blue Springs Road will enable safe access for all traffic and the community during the construction of the Stubbo Solar project.

We thank you for your patience as we carried out this important work.

Project Update- June 2023
