

# North East Wind

Renewable Energy from ACEN

## Proposed Transmission Development - Study Corridor (11 September 2023)

### North East Wind Transmission: North East Wind - Boobyalla - Long Reach

This is a visual representation of the study corridor only

The study corridor is not final and subject to change. The route will be further investigated and refined based on:

- Engagement with landholders and stakeholders.
- Surveys, including ecological, cultural heritage, and geotechnical.
- Engineering and technical design.

North East Wind Major Project	■ Existing Substation	■ Reserved Land	□ Local Government Boundary
Wind Turbine Envelope	■ Existing 110kV Transmission	■ Future Potential Production Forest	■ Ramsar Site
Study Corridor	■ Existing 220kV Transmission	■ Permanent Timber Production Zone Land	■ Major Road
■ Proposed Substation	■ Basslink (400kV)	■ Private Timber Reserves	■ Minor Road
			— Railways
