

July 2024 Update

Stubbo Solar

Renewable Energy from ACEN

Employ and buy
LOCAL
commitment

Installed
capacity of up to
400MW

We're thrilled to announce a major milestone for our Stubbo Solar project.

Recently, we reached the halfway mark with 50% of our total solar panels now installed at Stubbo Solar, which on completion will total more than 930,000 solar panels.

This achievement wouldn't be possible without the hard work of our incredible team, our EPC contractor PCL Construction, and our subcontractors.

Once operational, Stubbo Solar will generate enough renewable energy to power 185,000 average Australian homes per year and contribute to NSW's target of 50% renewable energy by 2030.

Shared benefits through
COMMUNITY
benefit funding

We understand the importance of sharing in the benefits that our project can provide. Under our Stubbo Solar Social Investment Program (SIP), we have supported not for profit organisations and events in Gulgong and surrounds.

Find out more information about our SIP on our website. Applications are always open.

Gulgong Debutante Ball 2024

We are a proud major sponsor of this year's Gulgong Debutante Ball. If you would like to register your attendance, please contact the Gulgong Netball Association.
