

# Stubbo Solar

Renewable Energy from ACEN

September 2024

ACEN Australia is committed to the Central-West Orana region for decades to come.

We believe the region has many opportunities for renewable energy to be developed in a way that optimises land use for the dual purpose of energy and agricultural production.

## Our Stubbo Solar project

Contribute to NSW target of **50%** renewable energy by 2030

Power up to **185,000** average Australian homes

Employ and buy **LOCAL** commitment

Shared benefits through **COMMUNITY** benefit funding

Installed capacity of up to **400MW**

up to **400 jobs** during peak construction

## Supporting our Community

Workers from our Stubbo Solar project have been volunteering and delivering fresh cooked, home style meals and desserts for those people who would like to remain living independently in their own homes.

If you are interested in joining Wenonah Staff or Volunteering, you'll find more information at [wenonahgulgong.com.au](http://wenonahgulgong.com.au)

## Sharing in the benefits

ACEN Australia's Stubbo Solar Social Investment Program (SIP) is our voluntary contribution to Gulgong and surrounding communities.

Totalling \$200,000 throughout the construction period, funding is available to not-for-profit organisations and activities that directly benefit and enhance the liveability and vibrancy of our local community.

Visit the project website to learn more about our Social Investment Program at [www.stubbosolar.com.au](http://www.stubbosolar.com.au)

## Investing in the CWO REZ

In 2023, ACEN Australia secured a 20 year Long Term Energy Service Agreement (LTESA) for Stubbo Solar in the NSW Government's first renewable energy and storage auction.

The LTESA is a risk management mechanism that will support the project in the future if the National Electricity Market moves into a sustained period of low prices. In return for the long term insurance value provided by the LTESA.

ACEN Australia has made substantial financial commitments to support community initiatives, regional manufacturing and employment.
