Renewable Energy from ACEN

October 2024

ACEN Australia is committed to the Central-West Orana region for decades to come.

We believe the region has many opportunities for renewable energy to be developed in a way that optimises land use for the dual purpose of energy and agricultural production.

Our Stubbo Solar project has been in construction since late 2023, and is nearing completion.

The project is a 400-megawatt (MW) large scale solar project being constructed by EPC contracting partner PCL Construction.

Social Investment Program (SIP) is our voluntary contribution to Gulgong.

Totalling \$200,000 throughout the construction period, funding is available to not-for profit organisations and activities that directly benefit and enhance the liveability and vibrancy of the Gulgong community.

To apply for funding visit our website [www.stubbosolar.com.au](http://www.stubbosolar.com.au).

In 2023, we raised over \$35,000 at Stubbo Solar for Pink Up Mudgee.

This year, we'll continue our efforts to raise funds and awareness this October, during Breast Cancer Awareness month to help raise funds for the McGrath Foundation, who place breast care nurses in communities throughout Australia.
