Renewable Energy from ACEN

July 2025

ACEN Australia is committed to the Central-West Orana region for decades to come.

We believe the region has many opportunities for renewable energy to be developed in a way that optimises land use for the dual purpose of energy and agricultural production.

In early June, our Valley of the Winds project, located near Coolah, was approved by the NSW Independent Planning Commission (IPC).

The approval is a significant milestone for ACEN, as we progress development of our 13GW pipeline across Australia.

More information can be found at www.valleyofthewinds.com.au.

Mudgee readers' festival

Proudly sponsored by ACEN Australia, the Mudgee Readers' Festival — now in its fifteenth year — exists to share the joy of reading with our vibrant community. The MRF committee works tirelessly to bring a fabulous festival to Mudgee each August. Tickets and more information at www.mudgeereaders.com

Sharing in the benefits

ACEN Australia's Stubbo Solar Social Investment Program (SIP) is our voluntary contribution to Gulgong and surrounding communities.

Totalling \$200,000 throughout the construction period, funding is available to not-for-profit organisations and activities that directly benefit and enhance the liveability and vibrancy of our local community.

Visit the project website to learn more about our Social Investment Program at www.stubbosolar.com.au
